Online School Management

www.eschoolinfo.net

E School Info offers hassle free web based solution for Educational institutions & Tutorials to manage student info with user friendly interface.

To improve the standards and working procedures of educational institutes, we are introducing **e School Info - Online School Management**. It will facilitate communication between Parents & Teachers, and will fetch fruitful results. Parents will not be required to take out special time to visit institutes and seek appointments with the teachers to find out about the progress of their children. There are a lot of activities going on in Institutes which are not noticed and shared by the parents. This lack of communications not at all conducive for an educational institute. Through **e School Info -Online School Management** you can inform parents about their latest activities & other academic plans. Even the student will be saved from the embarrassment of face to face admonishing of the teacher in the presence of the parents.

Main Highlights:

- ◆ Manage Student information efficiently.
- ◆ Easy communication with parents.
- ◆ Graphical representation of Report card analysis.
- ◆ Print Report card online.
- ◆ User Friendly Interface for Teachers / Parents.
- ◆ Supports CBSE, ICSE & other state syllabus.
- ◆ Send SMS* / Email to parents.

How it works:

- a) The data that you enter will be stored on the eschoolinfo.net server.
- b) Parents will login to the site & check their children info 24/7.

* Paid service.
